Legislative Districts:

Senate: 2, 3
House: 35, 40

Anticipated start date:

FEBRUARY 2008

New road surface and utility, waterline improvements

UDOT will partner with Salt Lake City, Salt Lake County and Questar to coordinate a cluster of waterline and utility projects on 3300 South (SR 171). Improvements include:

- Salt Lake City waterline replacement
- Salt Lake County sewer line replacement
- Questar gas line replacement

UDOT will resurface the roadway using an innovative new process called full-depth reclamation (FDR) which uses a machine to blend oil emulsion into sub-base for a very strong surface. FDR also costs less than other processes.

NOTE: Schedule information is estimated and could change without notice based on funding, scheduling constraints, stakeholder issues, and other unanticipated project elements.

Municipalities: Salt Lake County, Salt Lake City

Take care of what we have • Make the system work better • Improve safety • Increase capacity
